

XC 9036

DIGITAL COPIER SYSTEM

XC 9036

THE XC 9036 – A FLEXIBLE PRO FOR LARGE-FORMAT TASKS!

Technical diagrams, structural plans, maps or floor plans – some documents simply can't be squeezed into traditional formats. When you need to produce your work in large-scale format, the XC 9036 is the true expert, specialising in exceptional quality, top-notch efficiency and versatility. This digital copying system delivers an impressive 2.5 A0 copies (3.6 m) every minute directly from the roll. The XC 9036 features copying quality of 600 x 600 dpi, ensuring even the smallest details and the finest lines are reproduced with pin-sharp precision. Functions such as a real-time image viewer, zoom in and zoom out, mirror, invert or the setting up of secure cost centres all come as standard with this large-format champion. And when you require large-format multifunctionality, the XC 9036 can be transformed effortlessly into a network printer or scanner system.

SIMPLY ADD YOUR OWN FLAIR!

Whether as a copying, printing or scanner system, the XC 9036's controls are always at your fingertips thanks to its innovative touch screen control panel, keeping you constantly up-to-date regarding the system's status. Plus, the illustrated user support system offers you a guide to the system's various functions as well as step by step instructions on how to perform crucial tasks such as inserting the original or changing the toner. A complete array of system control tools are also located here, which allow system administrators to maintain optimal efficiency. This versatile information centre is positioned firmly and sturdily into the XC 9036.

FOR THOSE LARGE-SCALE JOBS IN YOUR NETWORK!

Thanks to the optional printing system expansions, the XC 9036 evolves effortlessly into a network printer, ensuring exceptional efficiency in large-scale format whilst at the same time standing out through its range of smart features. Using the TCP/IP network protocol, the XC 9036 creates an ultra reliable connection, allowing documents to be processed from a wide variety of applications such as AutoCAD and Windows. This allows not only complex PostScript and PDF files to be printed in large-format, but also DWF documents, which despite their compact file size contain extensive information and comprehensive details of the original CAD file.

To ensure the printout corresponds exactly to what you imagined, the XC 9036 memorises numerous print preview and print control options. Plus, since some tasks are more urgent than others, the XC 9036 also features an intelligent holding loop system. Urgent files will always be fast tracked!

PRECISION SCANNING.

Thanks to the scanner system expansion, the XC 9036 reads your documents at a lightning speed of 18 cm per second. Together with the latest in scanning technology, the copy is guaranteed to be just as exact as the original. Naturally, this all-rounder scans documents directly into a number of standard formats and stores these securely in their desired location with password protection.

YOU DECIDE WHERE IT LANDS.

Ease-of-use is the XC 9036's top priority, even when it comes to paper handling. Therefore, you decide where you want your jobs to land – either in the front or rear out-trays. An online folder can also be connected effortlessly. The XC 9036 also features a manual sheet feeder, which makes light work of copying individual sheets of more specific types such as transparencies.

XC 9036

TECHNICAL DATA XC 9036

GENERAL

Type	Console unit
Function	Copying, optional: printing, scanning
Print technology	LED
Fusing method	Heat and pressure rollers
Copy/print format	min 279 x 210 mm, max 914 x 3,600 mm
Scan format	min 275 x 210 mm, max 914.4 x 15,240 mm
Original width	min 275 mm, max 932.2 mm
Original thickness	min 0.05 mm, max 0.65 mm
Copy/print speed	3.6 m/min
1st copy/warm-up time	22 seconds (A1)/5 minutes
Copy/print resolution	600 x 600 dpi
Paper feed	2 rolls, manual sheet bypass
Paper weights	Plain paper: 64-90 g/m ² , tracing paper: 64-90 g/m ² , film
Paper output	Front or back side
Continuous copying	1-999 copies
Zoom	5%-3,600% in steps of 0.1%
Functions	Copying: easy to use touch screen, multiple language selection for touch screen, online help via touch screen, no additional PC required, electronic sorting, mirror and invert copies, automatic original size recognition, auto and manual image quality settings, copy management, accounting Optional printing: schedule print jobs by date and time, KIP-Request (for network printing), KIP-PrintNet (web based printing utility, similar to KIP-Request), AutoCAD drivers enable printing directly from AutoCAD technical design applications, printing of all Windows based applications Optional scanning: direct scan to PDF format, real-time image preview, scanning to personal mailboxes, concurrent printing and scanning to file, standard TCP/IP connectivity ensures easy integration with UNIX base
Supported data formats	TIF Group 3/4, Cals Group 4, Intergraph CIT/TG4, IBM IOCA, JPG, uncompressed Grayscale TIF, uncompressed Color TIF, HPGL, HPGL 1/2, Calcomp 906/907, CGM, HP-RTL, DWF

DIMENSIONS/WEIGHT

Dimensions	1,100 x 1,240 x 600 mm (H x W x D)
Weight	approx. 200 kg

ENVIRONMENT

Mains voltage	220/240 V, 50/60 Hz
Power consumption	max 1,500 W
Noise level	approx. 60 dB(A) in operation, approx. 52 dB(A) in stand-by mode

OPTIONS

Function	Printing, scanning
Additional data formats	PDF, PostScript Level 3
